USEL - ASM Pacific Technology Award 2019

Objectives

- To encourage and recognize undergraduate students for their excellent work in the self-initiated experiential learning project, which demonstrates creativity, innovation and practicability
- To unleash students’ potential in design and engineering regardless of which major they are studying in
- To celebrate and share good Undergraduate Student-initiated Experiential Learning (USEL) projects
- To promote the USEL program to the university community, especially non-engineering students.

Eligibility

The nominated project must meet the following requirements:

- Projects which are approved by USEL program and completed on or after 10 April 2018, which is the submission deadline of previous year
- By the time of award evaluation, the project should have been reasonably completed. In the event that the project was incomplete, the project team should be able to prove that the likelihood of success.
- The project must be the original work of the student/team of students.
- The nominated project must fulfill all the requirements of USEL Program.
- Projects which had previously received other awards within or outside the university at the time of application will not be accepted.

Application Procedure and Timeline

Each project team should submit the application form (please download here), together with the project description (in no more than 2 pages) to DENG Office (Room 6542, 6/F, lifts #27/28) or via usel@ust.hk on or before 1 April 2019 (Mon). The project description should cover a brief introduction of the Project with the following important elements:

- Purpose of the project and the new idea employed
- Explanation of the working principles and product demonstration/modelling
- Benefits to society and environment
- Conclusion

After submitting the application form and the project description, the School will review the applications and confirm your group’s eligibility via email in a week.

Each project team is required to participate in the Poster Fair and present their project at the Experiential Learning Day which will be held on 30 April 2019. A panel of judges will assess the project as well as the presentation performance to select the winning projects.

Details of the deadline and the specification of submission are stated in the subsequent Section.
